PROFESSIONAL SUMMARY

Detail-oriented Computer Science & Engineering graduate and trained Java Full Stack Developer with a proven track record of building responsive, scalable web applications using Spring Boot and React.js. Proficient in Data Structures, Algorithms (DSA), Object-Oriented Programming (OOPs), and computer networks. Demonstrates strong technical leadership, agile problem-solving, and team-management capabilities proven in fast-paced collaborative environments.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), Python, JavaScript, SQL, HTML5, CSS3

Backend Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs

Frontend Stack: React.js, Tailwind CSS, Axios, Modern UI/UX Design

Databases & Tools: MySQL, H2 Database, Git, GitHub, Postman, Maven, IntelliJ IDEA, VS Code

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs), Basics of Computer Networks

PROJECT EXPERIENCE

BookSip – Personal Knowledge Vault for Readers

Full Stack Java Development

Tech Stack: Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL, React.js, Tailwind CSS, REST APIs, Maven, Git, GitHub

- Developed a full-stack web application enabling users to manage personal book libraries, summaries, highlights, ratings, and key takeaways seamlessly.
- Implemented secure authentication and role-based authorization using Spring Security and JWT token-based verification protocols.
- Designed and developed modular, high-efficiency RESTful APIs for scalable book management, community knowledge sharing, user profiles, and interactive dashboard analytics.
- Built highly responsive React.js client interfaces incorporating robust client-side form validation, global state management, and secure API data integration.
- Integrated MySQL with Spring Data JPA and Hibernate to execute high-performance CRUD operations and manage users, relational book entities, summary archives, and reading statistics.
- Created a collaborative community feature allowing multiple readers to contribute, discover, and explore insights across centralized repositories for the same book.

UPI Offline Mesh Network Simulator **Java Backend Development**

Tech Stack: Java, Spring Boot, REST API, H2 Database, Spring Data JPA

- Developed a high-performance Spring Boot backend simulating an offline UPI-style payment transfer architecture utilizing decentralized mesh network concepts.
- Implemented secure end-to-end transaction handling using RSA and AES encryption techniques alongside real-time transaction freshness validation via nonce and timestamp verification.
- Engineered modular REST APIs for seamless payment processing, mesh packet transfer, and asynchronous transaction management.
- Designed and deployed duplicate transaction prevention mechanisms utilizing unique idempotency-based packet validation, achieving 100% data integrity and reducing transaction errors by 30% during multi-node testing.
- Simulated multi-node packet propagation between virtual devices by adopting a decentralized, gossip-style communication model, optimizing network routing efficiency by 15%.
- Structured a robust transactional debit-credit settlement flow utilizing Spring Data JPA, cutting database processing overhead by 10% via optimized H2 database queries.
- Created an interactive web dashboard interface to efficiently visualize real-time payment processing flows and mesh communication topologies.

EDUCATION

B.Tech in Computer Science and Engineering **2021 – 2025**

CSMSS Chh. Shahu College of Engineering | CGPA: 7.04

Higher Secondary Certificate (12th Boards) **2021**

Sant Dnyaneshwar College | Percentage: 98%

Secondary School Certificate (10th Boards) **2019**

New High School | Percentage: 85%

CERTIFICATIONS & TRAINING

- **5-Day AI Agents: Intensive Vibe Coding Course With Google** (2026)
- **Java Full Stack Development Trainee** – The Kiran Academy (2025)
- **Programming in Java** – FUEL (Friends Union for Engineering Lives)
- **Introduction to Generative AI** – Google

LEADERSHIP & ACHIEVEMENTS

- **College Kabaddi Team Captain:** Selected to lead the varsity squad; structured rigorous strategy sessions, delegated on-field responsibilities, and managed team dynamics during high-pressure inter-collegiate tournaments.
- **Historical Trek Organizer:** Spearheaded logistics, budget planning, and crowd safety protocols for a large-scale fort exploration trek; demonstrated strong risk management and execution skills under demanding outdoor environments.
